📁 Projects

EATSMART | React | Firebase | Tailwind CSS | Vercel

- Developed an AI-powered nutrition assistant that provides personalized meal suggestions and health tips through a conversational interface.
- Integrated AI and nutrition APIs to deliver recommendations based on user goals, dietary preferences, and real-time data.
- Built responsive and interactive UI using React, Tailwind CSS, Framer Motion, and react-hot-toast.
- Managed real-time data and authentication using Firebase and Firestore for seamless user experience.
- Deployed the application on Vercel, enabling easy access and effective user engagement.

LOAN APPLICATION MANAGEMENT SYSTEM | React | Firebase | Chakra UI | Vercel

- Developed a full-stack loan application system allowing users to apply for loans, compare options, and track repayments.
- Implemented secure user authentication and real-time data handling using Firebase Authentication and Firestore.
- Created a multi-step loan application form with document upload functionality and form validation.
- Built a dynamic loan comparison tool with interest rate calculations and payment scheduling.
- Designed an interactive dashboard for tracking application status and payment history, and deployed the app on Vercel with continuous deployment from GitHub.
